Long term plans for the series are to provide a competitive rules package that can apply to all sprint cars and create race events that truly allows the promoters and racers to build bigger venues, show the sponsors and fans the world's fastest short track cars, and to promote some of the best short track drivers competing head-to-head no matter what part of the country they are from or what series they run on a regular basis. This is the only pavement sprint car series that features competitors from all across the United States and Canada.
